Re: Guidelines and regulations for the use of certification mark and accreditation mark

Dear Valued Client

Your organization CAN USE the certification mark as bellow to demonstrate conformity of your **the food safety management system** in accordance with guidelines and regulations specified by TQC CGLOBAL.

1. ISO 22000:2018 certification mark and globally recognized accreditation mark

1.1. ISO 22000:2018 certification mark that is issued to clients for use	**1.2. Accreditation mark issued by accreditation body and IAF - International Accreditation Forum**	
ISO 22000 VERSION 2018 CGLOBAL.5963	VICAS 063-FSMS	IAF - MLA
The string: **VICAS 063-FSMS** is the accreditation certificate serial number recognized by the accreditation body (**FSMS** - Food Safety Management System) and IAF - International Accreditation Forum - https://iaf.nu/en/home		

2. Guidelines and regulations for the use of the certification mark and accreditation mark

Depending on the needs of use for internal activities or brand promotion activities, your organization can use the ISO 22000:2018 certification mark in Section 1.1 or use a combination of both the certification mark and the accreditation mark (in Sections 1.1 and 1.2) issued by TQC CGLOBAL Center - a member of CGLOBAL CORP. (United States), but must comply with the following requirements:

a) The ISO 22000:2018 certification mark is allowed to be displayed directly on the accompanying technical documents for communication and promotion on the mass media and on introductory documents and commercial transaction documents of the Company (capacity profiles, leaflets, letters, etc).

b) It is not allowed to use the ISO 22000:2018 certification mark on products or product packaging or in any other way that can make confusion with product certification.

c) The Company's statements used on product packaging shall not imply that the product, process or service is certified by this means.

d) The ISO 22000:2018 certification mark can be enlarged or reduced, but must maintain the ratio of the size and must be recognizable to the naked eye.

e) The ISO 22000:2018 certification mark must be the same color as the issued color or presented in the same color.

f) The size, shape and color of the CGLOBAL logo are referred to in Appendix 1.

In the event that TQC CGLOBAL finds any violation of the above requirements, it will be considered a basis for TQC CGLOBAL to make a decision regarding the validity of your Company's Certificate.

Yours sincerly,

Richard William Oliver Farnsworth

Chairman of Certification Board (TQC CGLOBAL) &
General director of Global Inspection and Certification Network (CGLOBAL) Corp. (United States)
